NEXUS ASSESS

Continuous penetration testing for real-time security, helping to keep you ahead of evolving cyber threats.

» [Secure Nexus Solutions](#)

Nexus Assess combines automated scanning, expert validation, and detailed reporting to deliver continuous visibility, faster remediation, and full compliance assurance for organisations.

Cyber threats evolve faster than traditional annual penetration tests can keep up.

Nexus Assess, from Secure Nexus, delivers a continuous, automated, and expert-validated approach to penetration testing providing real-time visibility of vulnerabilities, faster remediation, and long-term assurance.

Combining automated scanning, manual validation, and expert reporting, Nexus Assess turns penetration testing into a continuous

service rather than a once-a-year event helping organisations stay secure, compliant, and audit-ready at all times.

Why Choose Nexus Assess

- **Continuous Coverage:** Regular testing ensures vulnerabilities are found and fixed early.
- **Hybrid Approach:** Automation handles scale; human testers validate and prioritise.
- **Faster Remediation:** Real-time reporting reduces the window between discovery and resolution..
- **Compliance Alignment:** Demonstrate ongoing assurance for ISO 27001, Cyber Essentials Plus, PCI DSS, and NCSC guidance.
- **Predictable Cost:** Subscription model eliminates expensive ad-hoc testing cycles.

Our Structured Approach

Phase	Designed For	Includes
Essentials	SMEs or first-time PTaaS adopters.	Continuous Automated Scanning, Monthly Validation, Executive Dashboard.
Advanced	Security-mature organisations.	Essentials + Quarterly Manual Pentest, Integrations, Vulnerability Retesting.
Complete	Enterprise / public sector clients.	Advanced + 24x7 Portal Access • Custom Test Scopes Annual full Penetration Test & Remediation Workshop.

Core Service Components

- **Automated Reconnaissance & Testing:** Secure Nexus continuously scans networks and applications to identify exposed assets and misconfigurations. Automated exploitation frameworks simulate real attacker behavior, and daily or weekly testing cycles maintain visibility of your risk posture.
- **Manual Validation & Expert Review:** Testers manually validate critical findings to remove false positives, while exploitation tests safely demonstrate potential business impact. Each issue is verified, risk-scored, and prioritised by experienced consultants.
- **Live Client Dashboard:** Clients access a secure portal 24x7 to view findings, remediation status, and historical trends.

Remediation Guidance & Retesting:

Step-by-step remediation instructions and patch validation are provided, with unlimited retesting of resolved vulnerabilities during the subscription. A dedicated engineer supports technical questions and progress tracking.

- **Reporting & Compliance:** Executive summaries and technical reports align with OWASP and NCSC standards. Exportable compliance evidence supports ISO 27001, Cyber Essentials Plus, and PCI DSS audits, while monthly trend reports demonstrate ongoing risk reduction.

Benefits

- **Always-On Testing:** Stay ahead of new threats with continuous assessment.
- **Actionable Insight:** Verified, prioritised findings, no more noise or false positives.
- **Reduced Risk Window:** Vulnerabilities identified and fixed faster.
- **Improved Audit Readiness:** Evidence of ongoing assurance for compliance and procurement frameworks.
- **Predictable Subscription Model:** Fixed monthly cost. No hidden retest or reporting fees.
