NEXUS WORKSPACE SECURE

Harden and protect your Google environment with best-practice security controls to safeguard every account, file, and inbox from evolving threats.

[» Secure Nexus Solutions](#)

Protect your Google Workspace with Nexus Workspace Secure, a managed service that hardens configuration, monitors activity, and safeguards your organisation's accounts and data.

Google Workspace powers collaboration for thousands of organisations but without strong configuration, it can expose users and sensitive data to cyber risk.

Nexus Workspace Secure is a managed hardening and monitoring service that strengthens your organisation's Google Workspace environment using best-practice security baselines, automated protection, and ongoing oversight.

Delivered by Secure Nexus, Nexus Workspace Secure combines identity

control, data loss prevention, backup, and user awareness to safeguard your entire cloud collaboration environment.

Why Choose Nexus Workspace Secure

- **Hardened Configuration:** Aligns with Google and NCSC security frameworks.
- **Continuous Oversight:** Ongoing monitoring of account activity, permissions, and data sharing.

- **Integrated Defence:** Combines technical hardening with user training and credential protection.
- **Compliance Ready:** Supports GDPR, ISO 27001, and Cyber Essentials Plus.
- **Managed by Experts:** UK-based Secure Nexus engineers maintain, monitor, and improve your setup year-round.

Secure Nexus Google Workspace Security Hardening protects your environment with best-practice configurations, monitoring, and awareness, reducing risk and ensuring compliance.

Core Service Components

- **Identity & Access Security:** Enforce 2-Step Verification and password policies, apply least-privilege principles, audit admin roles and OAuth consents, and integrate Single Sign-On with existing applications.
- **Email & Collaboration Protection:** Advanced spam, phishing, and malware filtering; outbound DLP for Gmail, Drive, and Chat; attachment and link scanning; domain authentication via DMARC, DKIM, and SPF.
- **Device & Endpoint Management:** Enforce screen locks, encryption, and compliance across Windows, macOS, ChromeOS, Android, and iOS; integrate with Secure Nexus EDR for visibility and automated threat response.
- **Data Resilience & Backup:** Continuous Workspace backup for Gmail, Drive, Shared Drives, Calendar, and Contacts; immutable off-site storage; retention and legal-hold configuration for compliance.
- **Threat Monitoring & Incident Response:** 24x7 SOC oversight for suspicious activity; integrate with SIEM for correlation; monthly reports summarising incidents and recommended improvements.
- **Security Awareness & Credential Monitoring:** Ongoing security-awareness training and phishing simulations; dark web scanning for leaked credentials; targeted retraining for at-risk employees.

Benefits

- **Secure by Default:** Aligns your Workspace with Google and NCSC best-practice baselines.
- **Reduced Risk:** Eliminates misconfiguration and human error, common causes of breaches.
- **Continuous Improvement:** Regular audits and automated reporting maintain compliance.
- **Human + Technical Defence:** Combines security controls with user education and monitoring.
- **Simple, Predictable Pricing:** Delivered as a monthly managed service with no hidden costs.

At Secure Nexus, our mission is to empower small and medium-sized businesses with affordable, reliable, cutting-edge cybersecurity solutions.

We are dedicated to fortifying digital assets, connecting operations securely, and defending infrastructure against evolving cyber threats.

At Secure Nexus, we help your business navigate the digital landscape with confidence, ensuring your data and operations are always protected.

Our commitment is to make cybersecurity accessible, reliable, and tailored to each client. Together, we create a resilient foundation for your business in the digital age.

Why Work With Us

- **Security is in our DNA:** Trusted UK-based partner focused on measurable improvement and risk reduction.
- **End-to-End Managed Service:** From training delivery to progress reporting and dark web monitoring.
- **Continuous Improvement Model:** Data-driven insights into human risk and training effectiveness.
- **Tailored for SMEs & Public Sector:** Practical, accessible programmes that scale with your needs.
- **Tangible Results:** Measurable risk reduction, stronger compliance posture, and greater user accountability.

At Secure Nexus, our values guide everything we do. They drive our decisions, shape our culture, and ensure we deliver security with confidence, integrity, and impact.

					
Secure with Impact	Own It, Together	Keep It Authentic	Stronger as One	Think Bold, Act Smart	Never Stop Growing
We don't just protect systems; we build trust and peace of mind.	Accountability strengthens both our team and yours.	Honesty and integrity drive every interaction.	Collaboration fuels resilience and innovation.	We embrace creativity and calculated risks to solve challenges in new ways.	We learn and adapt continuously to stay ahead of threats.

SECURE NEXUS

Your digital defence partner.

Ready to take the first step towards stronger security?

Don't wait for a breach to expose your business. Let's identify your vulnerabilities today, and close them before attackers find them.
